

Outstanding Technical Achievement

Based on Project Achievement

This award may be given each year to an individual who, as project engineer or project manager, has achieved particular distinction in his/her own technical field and mode of practice, which may be government, education, industry, construction or private practice. The technical achievement shall be one that enhances the engineering profession and contributes to the good of the public. The award may be given in recognition of a singular achievement or a series of achievements, which are recognized within the profession as being unique, innovative and/or outstanding. The candidate shall have a record of active participation in professional and technical society activities and shall have a record of professional development through continuing education. If you have any additional questions, please email to wira@utm.my. Deadline is on January 31st, 2019. Incomplete forms may be considered ineligible for assessment. Email your completed form and related supporting documents to mohdhafzi@miros.gov.my.

The selection criteria include the following:

1. Eligibility: Member of SAE
2. The SAE-M executive committee's members are not allowed to compete for the Award
3. Due date for nomination: January 31st, 2019
4. Nomination done through submission of a form and copies of relevant documents as a prove of claims
5. The award recipient will be determined by SAE-M executive committee and the decision is final with no objection in this regard will be entertained
6. Award comprises a certificate and RM 1000 reward
